If you fly into your next duty station and go into quarantine, the code would be either PA (private automobile) or CA (commercial auto) from your last base to the departure Airport. Then CP (commercially procured) or GP(Governemnt procured) to the destination airport. Then it would be either PA (private automobile) or CA (commerical auto) to your quarantine spot at the PDS. Then the last step would be PA (private automobile) from the PDS (quarantine) to the PDS.
