

**DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS AIR MOBILITY COMMAND**

22 April 2020

MEMORANDUM FOR INSTALLATION PERSONNEL READINESS SECTIONS

FROM: HQ AMC/A1

SUBJECT: Post-Deployment Downtime for Non-Aircrew Airmen during COVID-19

1. This memo provides supplemental guidance for post-deployment downtime (R&R) for non-aircrew, Total Force Airmen during COVID-19.
2. During the COVID-19 pandemic, the Air Mobility Command remains committed to the well-being and resiliency of our deployers and families. In accordance with AMCI 10-403, “[our] goal is to successfully reintegrate Airmen with families, friends, community, and work centers following a long term deployment.” The responsibility and execution of the Post-Deployment and Reintegration remains a commander’s program and should be viewed separately from the 14-day Restriction of Movement (ROM) as specified in the OUSD P&R memorandum, *Force Health Protection Protection Guidance (Supplement 4)-Department of Defense Guidance for Personnel Traveling During the Novel Coronavirus Outbreak*. Therefore, based on commander’s discretion and as mission needs dictate, post-deployment downtime (R&R) will be taken consecutively with the 14-day ROM.
3. This guidance applies to non-aircrew Total Force Airmen, is effective immediately and will be rescinded once the requirement for the 14-day ROM is removed or further guidance is provided. All aircrew Airmen will refer to HQ AMC/A3 and SAF/MR policy memo for further guidance.
4. My point of contact is SMSgt Gladys Hayden, AMC/A1RR, DSN 779-7868.
