

375th Air Mobility Wing

Environmental Commitment Statement

“CHARGE”

COMMIT to improving local and regional stormwater pollution prevention goals while maintaining Scott’s surrounding natural habitat

HIGHLIGHT our partnerships with all stakeholders to promote environmental stewardship

ADAPT to changing environments while providing the Air Force with worldwide global mobility

REDUCE environmental impact to stakeholder mission through effective training opportunities

GRADE base-wide effectiveness of adherence to environmental regulations on a periodic basis

ENCOURAGE cooperation through timely response to routine/emergent requirements

The ECS is a declaration of Scott AFB's commitment to the environment and serves as the foundation for the Environmental Management Systems. All personnel are expected to be familiar with and understand this policy, which is a vehicle for communicating Scott AFB's aspirations for environmental protection, aligns with Scott's core mission and is appropriate to the nature, scale and environmental impacts of its activities, products and services.
