

SCOTT AIR FORCE BASE SEEKS COMMUNITY INPUT ON THE ENVIRONMENTAL RESTORATION PROGRAM

Scott AFB is seeking community feedback regarding its Environmental Restoration Program (ERP) to update the installation's Community Involvement Plan (CIP). The Scott AFB ERP is responsible for cleaning up contamination from past operations on and surrounding the installation.

Scott AFB is also assessing community interest in establishing a Restoration Advisory Board (RAB). RABs provide a forum for the base, the community, and regulatory partners to discuss and exchange information on current and future environmental cleanup projects.

Community input is a critical element of the environmental cleanup process. Your input will be incorporated into the CIP to assist Scott AFB in developing effective and appropriate ways to keep the public informed and engaged in the ERP.

If you would like to participate in the community assessment, please click the link or scan the QR code below. The assessment will be accessible online **July 8 – Aug 7, 2026**.
